EXPERIENCE

BOHEMIA INTERACTIVE

Gameplay Programmer

June 2024 - Present (12 months)

Prague, Czech Republic

Notable titles I worked on:

- Arma 4
- Unannounced project

Key Responsibilities

- Worked in a proprietary engine and created and improved functionality, game mechanics and tools using C++.
- Created and designed the core systems for gameplay mechanics.
- Designed tools and workflows that work in a shared environment for 2 different projects.
- Designed and created architecture that supports modding, community-driven content, and multiplayer features.
- Worked on an unannounced project from its conception.

CLIMAX STUDIOS

Gameplay Programmer

September 2023 - September 2024 (1 year)

Portsmouth, Hampshire, United Kingdom

Notable titles I worked on:

- Microsoft Flight Simulator 2024
- Unannounced PlayStation 5 project

Key Responsibilities

- Worked in a proprietary engine and created and improved functionality, game mechanics and tools using C++.
- Collaborated with a diverse team of programmers and designers.
- Participated in code reviews and provided constructive feedback to maintain code quality and best practices
- Created new mechanics according to the designs and wishes from the client.
- Developed and maintained a tool the entire team used to streamline and massively speed up development.
